

Shadow Councillors Wanted

Melville Residents and Ratepayers Assn have long lobbied for resident's and ratepayer's fair and just treatment and would now like community members to join in oversight of the integrity of performance by the City of Melville local government and its Council. For this objective we propose to establish a Shadow Council with a similar role as State and Federal shadow cabinets and staffed by volunteer shadow councillors

If you are eligible to vote in the City of Melville and been an unsuccessful council election candidate or you have a concern about not having been treated fairly by the City of Melville you should express your interest in being a shadow councillor.

If you have a local government field of interest you would like to see better managed Shadow Council is looking for you to join us in.

Some of the areas we looking for shadow councillors to lead include:

- Good Governance - compliance, complaints, enforcements and resolution
- Respect for members of the community
- Engagement of the community in the decisions and affairs of local government
- Road and community safety
- Building and Planning matters
- Public spaces, parks, recreation and natural environment

If you would like to express your interest in adding your voice to a growing community caring movement then please forward your contact details to:
